For over 40 years Tridon has been at the forefront of hose clamp technology

Tridon is the only Australian manufacturer of premium quality perforated and solid band worm drive hose clamps.

Tridon is totally committed to quality and this focus has achieved world class status in manufacturing. Tridon is constantly improving product performance and developing new products through a team of highly qualified engineers and technicians.

Support Australian manufacturing

First class materials, superior design and proven reliability - you can trust the Tridon brand.

Tridon has invested heavily in producing quality hose clamps in Australia. With over 40 years of manufacturing expertise, Tridon continues to be a 100% Australian owned private company and is proud to be the only manufacturer of hose clamps in Australia.

Tridon Australia's manufacturing facility is ISO9001 quality and ISO14001 environmentally accredited, and supplies a wide range of hose clamps to the automotive aftermarket, OEM, industrial, hardware and retail markets.

Being based in Australia has enabled Tridon to adapt to changing local market conditions. Customer specific, custom made hose clamps are designed and manufactured in house – a benefit of local manufacturing.

A hose clamp is a small component performing an extremely important job. The hose clamp is tasked with performing under pressure and retaining vital fluids. Market leading Tridon perforated band hose clamps are available in part stainless, all stainless and 316 stainless steel to satisfy all demands. In all materials, the flexible band and high quality screw ensure a low free torque for easy installation. The rolled edges and exact tolerances make fitting easy, protect each hose and seal perfectly.

Merchandisers are also available to organise and store your clamps, whether it be in a portable grab kit, bench mounted drawer system or a wall mounted display unit, there is a solution for all requirements.

When you purchase a Tridon product you are supporting Australian manufacturing and receiving a premium product that will not let you down.

Premium quality. Extensive range. We've got it covered.

Macnaught in the Industry

Macnaught is a proud Australian company. Established in 1948, we have been designing and manufacturing high quality fluid and lubrication equipment for agricultural, industrial, automotive, transport and mining industries across the globe.

Our range of grease pumps and guns, oil pumps and guns, fuel pumps, hose reels and flow meters are distributed to more than 70 countries.

We are the best in our class.

Our leadership position is due to a combination of innovative design, quality workmanship and dedicated people. People who not only understand the products we offer, but can provide expert advice and support when using them in some of today's most demanding industrial environments.

It's this combination of qualities that puts daylight between us and our competitors.

Macnaught products come with a 10-year mechanical warranty and guaranteed parts availability.

Australian made metal working fluids

Saint-Gobain Abrasives brings powerful, precise and user-friendly solutions to cut, grind, shape and finish all types of materials, across all applications everywhere around us.

To reshape our world, our customers want the smartest designs so we obsess over material sciences and technologies to design and co-develop our products with sustainability and innovation top of mind.

Our customers want the right choices so we are committed to the highest standards for your safety, your comfort and your efficiency, supplying the widest portfolio of abrasives solutions. Moreover, we cut, we shape and we finish every material for every application.

Flexovit pressed its first wheel in Victoria, Australia on 25th September 1978. Saint-Gobain Abrasives acquired the brand in 1998, bringing a wider distribution network with Research & Development specialists. This allowed Flexovit to expand its product portfolio to reach more customers. Partnered with Norton, Saint-Gobain offers a comprehensive range of high performance abrasives solutions for a wide range of processes, such as cutting, grinding, sharpening, blending, finishing and polishing.

On 12th September 2014, Flexovit proudly made the decision

to commit to the Australian Made Campaign, supporting the manufacturers and opportunities for Australians. The vast majority of Australian's recognise the logo, providing consumer's strong confidence that a product is Australian. Flexovit has become Australia's favourite wheel of choice, and remains dedicated to delivering local solutions to local customers. Through continual improvement in safety, innovation and performance.

In addition, we continually invest to optimise our supply chain and digitalise our processes, for service excellence and ultimate customer satisfaction, every day, everywhere.

We serve many market segments - Metal Fabrication, Manufacturing and Industry, Electronics and Specialities, Woodworking, Transportation, Automotive Aftermarket, Construction and Home Improvement, Energy and Environment.

At the end of the day, no matter the market, no matter the application, we are here to help your business produce results.

Saint-Gobain Group €41.8 billion in sales in 2018 operates in 68 countries more than 180,000 employees.

Peerless Products are an Australian owned & operated business coming into our 60th year! Three generations of supplying industrial Air Compressors to the market, priding ourselves on exceptional quality and service.

WHY BUY *Genuine* NITTO KOHKI CUPLAS ?

STRENGTH & DURABILITY

With superior design and hardened key parts backed by stringent quality control, Cupla fittings have a reputation for durability and longevity. All fittings are also backed by our 12 MONTH WARRANTY.

SAFETY IS PARAMOUNT

With the extensive use of compressed air in industry today and the ever increasing focus on OH&S policies, Nitto Kohki has released to the Australian market their comprehensive range of Safety Cuplas.

Nitto Kohki's market leading standards are constantly challenged by the introduction of inferior copies. Beware of 'Nitto Style' Cuplas as they are not covered by our comprehensive warranty. There are many inferior alternatives out there.

PUT NITTO TO THE TEST AND WE WILL OUT-PERFORM OUR COMPETITION.
